

Exercise 1: Analyze the Bitcoin ownership and transaction mechanism

a) The true nature of "owning" Bitcoin

It is impossible to assert that Mr. A says that "this paradise is based on the basis of its nature" is not correct.

- There is no amount of "Confiscated Coins" left lying around that could be used as a source of abuse.
- "Fear of Hustle": "Afraid of Hustle" is the thing she is afraid of. Da ú ra strang cha ch cha ch cha tho ú (UTXO) is next to his wife. Rights and obligations This is understood through the gift of Pri and Te Key (Khoàriengtu).
- Some words for wallets: Coin wallets (software that has the same value/negotiation) and is even a tool. Cua n ly kho à (KyMangàgêment), used to prepare kho à, boiled rice and stewed tea so dua but not but rather persistent in measurement.
- Coffee numbers: Porcelain plugs use coffee numbers to make a difference, making it simpler and easier to compare. UTXO) is said to be underground and stagnant because of the evil and the nodes in the underground membrane, not this one. The sidewalks on the sidewalks are often affected by owls in every house.

b) Ability to cancel transactions and recover funds

On top of that, I have no idea what I'm talking about, but Mr. A doesn't agree that he's going to go to his house. Reason for swearing:

- The correct calculation of the debt (Decentralization): The bond is not affected by the government's government. It's so big and it's not like he's fallen into the trap of the devil. Therefore, completely There is no "big blockage" or support for any customer who has problems with their home or business. The foreign language is mixed with riches and evils.
- Impatience: A different expression is expressed in a block and The house is exactly the same as the house (confirmations), it cannot be attacked or destroyed by porcelain. Miss m (Hashinh) and Proof of Work (PoW) clearly discuss the position of being a messenger. To n next to m and chicken n like that can not be satisfied.
- Household rafters: The more you get fed and the more you eat, the more strange it is. A, Her integrity and ability cannot resist the temptation to become more and more vulnerable.

c) Security of assets when the Private Key is exposed

The old house is not completely safe, it is not enough to use it on the land.

- The word "toi" means "Privatê Kiy": "This is the house's word used to prove rights". afraid of hu ú ta ì sa n and bad ky ky dien four topics ky yo u ch s tu ú tye n. In the oath of Bincoin, "Oh my god, I'm so stupid".

– What is the meaning of the sentence? It's a good idea about the sentence. Most of the wallets on the market have been hit by A. If you have a problem, we swear by the house. (import) this store and what other applications can be used on it?

The rights to the contract and the rights to the contract are not necessary but can be used on the subject of the agreement.

- Ha ú qua gift: The position that harmonizes Private The position of the husband and wife is the position that the husband is married to. What is the difference?

Exercise 2: Compare Ledger Architecture and Security Mechanism

a) Table comparing centralized ledger and distributed ledger

Criteria	Centralized ledger (Bank)	Distributed ledger (Blockchain)
Rights and obligations	Thousands of ash and ashes hit the coffee net, which is the house's uncle who stores the coffee and keeps the ashes on the floor for the people to use.	This kind of evil is completely through Pri and Qi Ke. The patient's circulation is not measured by the third-panel surface (TPT).
Mrs. Ch's smoothness	Even thousands of women have the right to drink coffee and drink soy sauce.	All foreign languages are treated more than others. She signed a contract with the foreign minister.
The house is filled with wealth and prosperity	Thousands of customers are committed to supporting the wealth that harmonizes the land of coffee and property issues for customers.	There is no customer support. If you want to pay for it, you will have to pay for it.

b) Double Spending prevention mechanism in Bitcoin

In the case of Cryptocurrency, although there are not thousands of coins, but the number and thousands of units of a certain amount of money lost is usually the amount of money lost:

- Foreign exchange ambassadors: Block has a full-service foreign exchange ambassador in four warehouses. veterinary medicine (Genesis). When a foreign object is removed from the house, the Input tree will be ready. Da nh da ú is "da she ti ú".
- Nodes: Nodes in the grid are connected to each other to integrate the node. cry strangely. If a person has a porcelain-like character, it is called "da she" "Tieu ú", both the present and fourth buttons give the daily translation as p quad c.
- The land of separation from foreign languages is so strange: In the country of foreign languages that ú interesting (thewordngtúúmotngonnvon) is c. It's so random, it's so strange that it's stuck in the block (Block) support c. The child's abnormality is considered unsuitable and dehumanized.
- Animal food market: The more a woman can be fed and nourished, the better her health will be. rake and plow the soil as much as possible to support the foundation so it cannot be overturned.

c) Risk analysis of 51% attack

If a group of miners gets more than 50% of the total power (Hashràtì) of the village, they will be able to swallow a small amount of money and be forced to rely on the evil people to learn.

Behaviors they CAN do:

- Dao c c hu ch ch ch ch ch ch nh nh ho: Th cshthsthestudup (DoubleSpending)
Mrs. Cuc T is saying that she has to say a thousand words to her mother.
- Thousands of foreign languages : They are committed to providing stable house cleaning services, without shouting.
The fluid cannot be stored in the stool.
- Symptoms of taste and smell:
- Prejudice and Other People: They don't have Pri and Qi and other people don't swear
Let's go back and forth with the four concordances to refer to the other quadrants.
- Tà o ra Bựcình: They don't swear that they will measure the amount of money they have.
The teacher must pay the required amount of inventory.
- The teacher measured the ceramic porcelain: But it has 51% of the porcelain, the position is the porcelain and the bamboo is the basis.
tonnage and warehouse due to the location of the warehouse adjacent to the warehouse
and the need for total computing power
Don't worry.
