

SUBJECT REGISTRATION FORM

(Question 2: synthesize learned knowledge (analysis, software design, database, programming languages,...) combined with self-research knowledge to design a system/program/application/software that solves at least one practical problem in society)

1. Pinetinbasic Last name & Name: Ha Hoang Phuc.....MSSV: 222683.....Email: phuc222683@student.nctu.edu.vn.....Class: DH22TIN07.....TV2's Full Name:.....MSSV:.....Email:.....Class:.....

2. Registration topic Topic Name: Website to learn programming - CodequestAI.....

The topic is intended to be developed into a graduation thesis (GV's full name.....) thesis instructions , , wishes to be a teacher

Summary of topic content: Website to learn programming-CodequestAI is a modern programming learning platform, combining AI + Gamification to create a learning experience that is both fun and effective.....

What functions does the topic include: (Decentralization, search, statistics, reporting, management,...): Decentralization (login/logout), user management (profile, forgotten password), statistics (rankings, analysis), game management ([AI] personalized coding quiz, [AI] speed challenge, [AI] code grading, [AI] lesson creation, [AI] code battle, [AI] debugging, [AI] code art), [AI] teaching, [AI] challenges, [AI] virtual assistant, and internal pages content (home, about, contact, featured, dashboard).

Bái Dục

Buổi sáng, Mai thức dậy sớm. Em chạy ra vườn ngắm
nhà ông mặt trời đang nhò lên từ phía đông.

Nhưng tia nắng sớm chiếu rọi qua kẽ lá, lấm vườn cây
sáng bừng lên.

Mai hít thở không khí trong lành và lắng nghe tiếng chim
hót líu lo trên cành cây.

The topic has the following contents: (yes/no) System design analysis:

Yes.....Database:

Yes.....Interface

design: Yes.....

Resend the registration form via **Email:ttthao@nctu.edu.vn**

Development direction:

Yes.....The topic has an inheritance from the existing topic:

Yes.....Other

(specify):.....

.....

Where is the topic applied: Interactive programming learning platform with AI for education, training, and assessment of programming skills for students, beginners, and training centers.....

3. Other opinions: --Do students have any additional suggestions for instructors:

Field	Data Types	Description	Bind
