

Module: Microsoft Word ((10.0 points))

Question 1. (4.0 points) You create a large document structure as follows:

-Create documents with names according to the following structure:

TenThiSinh_somay_phongthi.docx save to drive D: For example: A candidate named Nguyen Van An sits on machine number 1 of exam room C3-03, when saved as name files are: *NguyenVanAn_01_C303.docx*

-Create large document structures:

o **Section 1:** Save the cover page according to template number 1

o **Section 2:** There is a page containing the words “TABLE OF CONTENTS” and contains an automatic table of contents document

o **Section 3:** There are 3 pages, page 1 has the content "Foreword", page 2 has the words "Exam certificate", page 3 content "Exam", add Footer section below the footer and define like *sample number 2*. All 3 lines of text on all 3 pages in this Section apply

Heading 2 (Font: Times New Roman, Size: 13, bold font)

o **Section 4:** There is a page containing the words “References”, applicable **Heading 2**.

Question 2. (2.0 points) Perform page numbering as required as follows:

-Cover page: no page number

-Table of Contents page: no page numbers

-Section 3: number pages 1,2,3, starting from number 3

-Reference page: Page number of type i,ii,iii,...starting from i

-After numbering, you insert the table of contents automatically into your table of contents page **section 2**.

Question 3.(4.0 points) You create the following form *sample number 3* with the following requirements:

-In **section 3** There are 3 pages available, please insert 1 more page in this section after the page “Exam” (in the entire large document, the page containing this form is page number 6)

-The controls require content according to the following description:

Order of things control	Control types and properties
1	Textbox, allowing keyboard input
2	Textbox in password format, allowing input from the keyboard
3	Textbox in password format, allowing input from the keyboard
4	Date picker, allows selecting dates in calendar format
5	Option Button, allowing to choose 1 of 3 gender options
6	Combo box, allowing to select a list of provinces and cities: Can Tho, Hanoi, Da Nang,....
7	Textbox, allowing input from the keyboard, automatically wraps the line when it runs out of lines
8	Check box, allowing to check and select as required
